

Are you looking for a rewarding career as a mechanic? We are hiring a mechanic for our Phoenix, Arizona shop, to maintain and repair our fleet of drill rigs (Gefco, Atlas CopCo, Schramm), trucks, trailers, and other equipment.

Job Description

Our drilling equipment mechanic will perform all maintenance and repair functions on all equipment per company policy and DOT regulations. The mechanic must be able to perform general maintenance, repairs, and troubleshooting on various types of trucks and equipment used for our drilling operations. A general understanding of diesel engines, gas powered engines, hydraulics, electrical systems, and pumps is essential. Knowledge of drill rigs and equipment is preferred.

Flexibility, ability to multi-task, prioritize tasks, and good organizational skills are required as the mechanic will receive a variety of requests on a daily basis. In addition, a positive attitude, along with a willingness to help other employees, is required. The ability to work in a team environment without supervision is necessary for success.

Essential Functions

- Review all repair request forms, make suggestions, obtain pricing, and discuss options for completing repairs with the operations manager, as necessary
- Repair and maintain all drill rigs (Gefco, Atlas CopCo, Schramm), trucks, trailers and other equipment
